Households with a divorce within the last 12 Months. This data is NOT permanent. It is only active for 12 months. It is based on where the divorcee CURRENTLY lives, typically a new residence after the divorce.

Compilation Process:

This file rebuilt from scratch every two months. We start with over 800 million name and address records **only** from multiple source contributors i.e. white pages, real property data, and other sources. The 800 million records are processed via National Change of Address (NCOA), Delivery Sequence File (DSF), Locatable Address Conversion Service (LACS), and other proprietary information sources.

Additionally the data is passed against suppression files to eliminate consumers or telephone numbers as appropriate: Decease File, State Attorney General (SAG) data, the Direct Marketing Association's (DMA) do-not-mail and do-not-call lists, and the national FTC do-not-call file.

Pricing is based on quantity and selects.
